Advantages to filing your taxes early!

There are many advantages to filing your return early. One major reason is if you are looking to receive money this year from your return, the earlier your tax return is sent to be processed the sooner **you will receive money** from the Canada Revenue Agency! Many who file late could receive their cheque as early as June.

Other advantages of filing your return early is to exercise your RRSP options.

We look forward to be speaking with you soon!
